Dear Parents and Carers,

Re: Introduction of Our Enhanced Learning Provision at Newlyn School

We are excited to introduce a new Enhanced Learning Provision group at Newlyn School, designed to support the holistic development of our children. This new initiative is part of our ongoing commitment to ensuring that every child is given the tools and opportunities they need to thrive not only academically, but emotionally, socially, and personally.

The Enhanced Learning Provision will offer a tailored program that focuses on key life skills, therapeutic approaches, and enriched learning experiences. Our aim is to meet the wide-ranging needs of each child, building their confidence, independence, emotional resilience, and social communication skills alongside their academic development.

The curriculum for the Enhanced Learning Provision will include:

- Life Skills Development: Activities that promote practical skills for everyday living, such as self-care, problem-solving, collaboration, and communication.
- Therapeutic Support: Incorporating strategies such as mindfulness, emotional regulation activities, sensory integration, and structured social skills groups, delivered by trained staff.
- Holistic Learning Opportunities: A nurturing environment where learning is adapted to suit individual strengths and needs, promoting a love of learning and encouraging curiosity.

Activities that could be incorporated into this provision are:

- Visits to the farm and a greater focus on the benefits of outdoor learning; both woodland and beach locations.
- Art therapies
- Emotional regulation group sessions
- Social communication interventions
- Farm to fork activities promoting a greater feeling of belonging and identity within our local community.

The provision will be carefully tailored to each child to ensure that they can continue to make steady progress towards shared aims and ambitions for each individual, with regular reviews to ensure progress is monitored and celebrated. We believe this approach will further empower our children, equipping them with the essential skills they need for their future both within and beyond the classroom.

We are proud to be offering this enhanced provision and are confident it will have a lasting, positive impact on the children's growth and well-being. The timetable for this provision focuses on the afternoons at Newlyn School. There will be two options for entry to the Enhanced Learning Provision:

1. Full time integration (each afternoon)

2. Partial integration (selected afternoons to support growth in key areas on the child's support plan).

The leadership along with class teachers will determine which level of support your child will need and will provide you with a personalised timetable for your child in due course. To begin, all children invited will be accessing Art Therapy which started on Tuesday 29th April 2025. From Monday 12th May weekly learning visits to the farm will commence. We are very lucky to be working with a fellow TPAT school to offer this provision, Pendeen School.

Please ensure that each Monday comes to school with a change of clothes suitable for the farm, we will be going no matter what the weather!

Thank you, as always, for your continued support. We look forward to working closely with you as we embark on this exciting new journey.

Should you have any further questions or queries, please do not hesitate to email send@newlyn.tpacademytrust.org

Kind regards,

Ms Connolly
